— Unemployed, lying idle in bank or at home, where it yields them no income, will find our "Certificates of Deposit" a most satisfactory and profitable method of in-vestment. We issue two kinds of certifi-cates: "Demand" Certificates and "Time" Certificates. The former is for the benefit of those who may have use for their ready cash at any time. This method of investment is very popular, as it enables the holder to get possession of his money on demand and at the same time nets him 3 per cent interest. Our "Time" Certificates are for those who have a sum of money which they will not have use for within a specified time—these draw 4 per cent in-terest in three months, 5 per cent in six months and 6 per cent in one year. 12 We invite active business accounts of individuals, firms, corporations and house-hold accounts of ladies. THAT "EX" RULE.

Its Operation. The modifications of the "ex" rules as an nounced have sent joy and hope to many a fainting heart, and the whole number of "exes Cleveland desires to do so. One office seeker expressed this view by saying: "This ex rule is being used by Cleveland just as the railroad officials hide behind the interstate commerce law. When a person nowadays applies for railroad pass the read replies in a very polite way that they are very sorry indeed.
Nothing would please them more than to furnish the transportation, but the interstate commerce law prevents them. But if they want to give the pass it comes along by return mail. That's Cleveland's ease exactly. If he wants to appoint an ex he does it, but if he doesn't he just says: 'Very sorry, but you know the rule about ex.'"

First Controller Matthews has decided that certain sums of money held up by the Treasury Department from the direct tax refunded by Congress to the states on account of the states warrant of law. Acting on this decision the Treasury Department is now paying to the states the amounts withheld. They are: California, \$8,110; Georgia, \$4,229; Illinois, \$17,809; Massachusetts, \$4.786; Michigan, \$5,633; New Hampshire, \$3,754; Oregon, \$2,472; Rhode Island, \$11,925; Virginia, \$6,406; Wisconsin. \$5,201; New Mexico, \$5,597; Washington, \$3,985; District of Columbia, \$20,354. The second controller of the treasury has decided in the case of Capt. Richard Wallach, U. S. M. C., that an officer on waiting orders mutation for quarters. In disallowing Capt. Wallach's claim he says: "He was not at a military post or station, but had been on sick leave, and the regulations required him to report himself when fit for duty, and it is extremely doubtful whether such reporting by letter carries with it the right to commutation for quarters."
